## Correction

Two typographical errors crept into Part II of Gene Rundell's article on "Oxidation Kinetics of Heat Resistant Alloys" (*MP*, May 1985, p 51).

In Fig. 2 (p 53), the ordinate should be "Oxidation, mils ( $\mu\text{m}$ ) per 1000 h" — not "100 h."

In Table II (p 54), the 3000 h weight gain value for RA 253MA should be "0.676 g/cm<sup>2</sup>" — not "0.0676."

Metallurgical Transactions is an unusual publication produced in two sections for your convenience. **Met Trans A** is a monthly covering physical metallurgy and materials science. **Met Trans B** is a quarterly covering extractive and process metallurgy. Order them singly or together. Also available in 3-book annual bound volumes. Copublished by American Society for Metals and The Metallurgical Society of AIME.
